Elder Haley acts on the principle
that when you have done a man an in-
jury you must punish him for it. And
Bishop Newman seems to be in sym-
pathy with that kind of conduct.

There is unquestionably a fine field for
democratic effort during the next three
years in North Dakota, South Dakota,
and the state of Washington—New York
Sun.

Probably this is said by the Sun with
some aim at sarcasm. The democrats
have been making considerable effort in
that "fine field" for several weeks, and
the late elections, and to what dis-
couraging results!

The reports come from Philadelphia
that Samuel J. Randall is much im-
proved in health, and that he will soon
go to Washington. Mr. Randall having
received a new lease of life, his demo-
cratic enemies of the free trade presen-
tation will be much disappointed. Ran-
dall is a terror to his party, and to read him
out of the party is more than they can
do.

A cast steel gun, weighing 235 tons,
has just been shipped by the Messrs.
Krupp from Hamburg for Cransford.
The caliber of the gun is thirteen and
one fourth inches, the barrel is forty
feet in length. The range of the gun is
eleven miles and it will fire two shots
per minute, each shot costing between
\$1,250 and \$1,500. At the trials of the
gun held in the presence of Russian of-
ficers at Meppin, the range of the Essen
firm, the projectile, four feet long and
weighing 1,800 pounds, and propelled by
a charge of 700 pounds of powder, pene-
trated nineteen and one-half inches of
armor, and went 1,312 yards beyond the
target. The gun is the largest in the
world.

The other day the colored men in Illi-
nois held a conference at Springfield, and
in an address they issued were these
words: "We appeal to the American peo-
ple, to congress and the executive head
of our government, to men of all parties
to rise above partisan bias and bitter
prejudice and bring to bear the majesty
of the law to the end that the life and
property of the American negro may be
as safe in Louisiana, Mississippi, South
Carolina, Georgia and Texas as in the
northern states." Under the present
democratic plan in the south, the negro
will never be free there as he is in the
north. The kind of love the southern
democrats have for the colored man
compels him to vote the democratic
ticket or keep away from the polls.

During the summer "Bob" Burdette
has been serving as pastor to a Baptist
church in Philadelphia. As the close of
his work they gave him a gold watch in-
scribed, "Presented to Robert J. Burdette
by his Baptist friends at Marion
Square as a token of gratitude and es-
teem, Oct. 6, 1889." On the outside case
is a handsome monogram with "R. J. B."
The charm was a cornelian bound in
gold, and in relief the head of a Greek
woman.—Exchange.

There is something splendid in the life
of "Bob" Burdette, the humorist.
Ever since the death of his wife, who
was long an invalid, he has done much
missionary work. Once in a while he
makes people laugh, but his chief aim
now seems to be to do good, and in this
he is meeting with wonderful success.
He is a fine lay preacher, and an earnest
christian.

There is something sad in the destruction
of the splendid residence of Mr. and
Mrs. Studebaker at South Bend, Ind.
It cost \$300,000—was the most costly
house in Indiana—and was thought to be
well-nigh fire proof. It was built of some
of the finest material, and the internal
construction was of such a nature that no
fears whatever were entertained of a fire
by fire. But the old story is re-told, old
regime were carelessly stored away in a
room where the painters put their paint,
and spontaneous combustion put the great
structure in ruins. There was only \$25,000
insurance on the home and its contents. On
September 13, Mr. and Mrs. Studebaker,
celebrated the twenty-fifth anniversary
of their marriage, and a formally opened
the magnificent residence which was com-
pleted last February. Twelve hundred
invitations were issued to friends and
relatives in the United States, Canada
and England. Mrs. Studebaker suffered
severe injuries by the fire, having had a
very narrow escape from death. Mr.
Studebaker was with the Pan American
delegates at the time of the fire, being a
delegate to the congress.

It is to the interest of every party of
the south to have these distinguished
foreigners visit our section. Some peo-
ple think otherwise. They are of the
opinion that inasmuch as the evidences
of wealth and prosperity are more abun-
dant in the north and west, it would be
best for these delegates to go home be-
lieving that the portion of the country
they have not seen resembles in
main features these sections they
have seen. But upon re-
flection we are not prepared to adopt
that view. These delegates are well-in-
formed men. They know the south
suffered terribly in our civil war, in spite
of the fact that they had to struggle since
the war against adverse circumstances. If
they come among us, then, and learn
how we have conquered adverse fate,
when they see evidence of enterprise
and progress on every hand, when they
listen to the buzz of the sawmill and the
roar of machinery, they will recognize
the fact that there are people who are the
peers of those who have made New York
and Chicago the two great centers of
American commercial activity.—Mobile
Register.

By all means Mr. Blaine should take the

South and Central American delegates
to the Pan American congress, to the
southern states, there is much to be seen
there. Almost Florio-like has the
south risen out of its trouble. It was
badly crushed and severely punished by
its rebellion. It lost hundreds and
thousands of lives, and millions upon
millions of property. It was crushed in
spirit and broken in heart by the out-
come of the war, but through the in-
fluence of republican administration, by
the aid of northern men, and through the
blessing of protection, the south has
made wonderful progress. It has done
more in the way of material progress
during the past fifteen years under Amer-
ican protection and with no slaves, than
it did through seventy years of slave-
holders rule. By all means let the Pan
American congress delegates visit the
south and see what great things have
been done there.

THE ATTACKS ON GOVERNOR
HOARD.

The following article recently appeared
in the Augusta Eagle, and should be
read by all far-sighted persons who
want to see justice done Governor
Hoard:

It is not a pleasant task for one to
dwell upon and talk about the faults of a
friend or even to know that such faults
exist. Nor is it an enjoyable business
for us to notice what to us seem to be
glaring and inexcusable faults of the
Evening Wisconsin, in its unfriendly and
unfair attacks upon the governor. Many
of our friends know well that we have
always held and expressed a very high
opinion of that paper. When appealed
to by any of our friends as to what state
paper we would recommend to such of
them as wanted to subscribe for some
able paper, containing more state and
general news than we could give them in
The Eagle, how often have we recom-
mended the Wisconsin. How often have
we recommended it for its fairness and
candor on all public questions. Though,
perhaps, hardly radical enough to suit
some readers, yet we never hesitated to
dwell upon its reliability—never going
into any unfair or unreasonable extremes
on any question. Always clean, conser-
vative, truthful, just and fair; always re-
liable with all questions it treated upon
—such were our opinions of it, and often
were they so expressed.

We are sorry to find that something has
come over the Wisconsin, recently, a
change, that makes it differ so much
from what we used to believe and assert
of it formerly. Its extreme and unfair
efforts to injure Governor Hoard and to
lower him in the estimation of the peo-
ple of the state, have of late been
directed to such extremes as to compel
the governor's political opponents even to
condemn its course.

We wondered greatly last summer, in
view of its past fairness, how the Wis-
consin could stoop to publish the pre-
tended "special telegrams" attacking
Mr. Hoard as a candidate for a second
term, and as a man, who appeared in the
columns a day or two before holding of
the convention that nominated him.
However, we could have forgiven that,
upon the assumption the Wisconsin
had for once lost its temper, as seeing a
rival paper's candidate so far outstrip-
ping all others in the race for nomination.
That attack, though undecidable upon
any ground, was perhaps a forgivable
error of the circumstances. But the abso-
lute non-effect of those attacks, to either
defeat or to injure with the people the
man lied about, ought to have taught a
paper of the age, experience and good
sense of the Wisconsin that, while it
could not hurt the governor to any ap-
preciable extent, there was a great and
serious danger of hurting itself. It could
not help seeing that it failed to hurt Mr.
Hoard, and its knowledge of human na-
ture ought to have taught it that he who
tries to destroy another's popularity and
false, stands in serious danger of destroy-
ing his own.

But the Wisconsin is evidently willing
to run that risk. For after the govern-
or's order for troops to prevent strike
riots in Superior, lately—an undoubted-
ly wise act, he was assailed in all possible
and ridiculous ways for it. It didn't
hurt the governor; for we believe that
nineteen-twentieths of the people ap-
proved of what he did.

Is it least excusable for attacking the gov-
ernor in the recent resignation of Col.
Carter as state prison commissioner and
the appointment of Mr. Weeks to the
place. Although the appointing power
in the case is the state board of prison
commissioners, the Wisconsin has in-
vented a complete theory whereby the
governor is charged with having Carter
discharged to make room for a political
creditor of his. It is not likely that
Governor Hoard had that in regard to
his own standing before the people of the
state as to be guilty of what he is charged
by the Wisconsin, to say nothing of his
not being able to so "bores" the commit-
tee to do a dirty job for him, even were
he the man to attempt such a thing. It
does not appear that any of the publi-
can papers have any knowledge of the
cause for Col. Carter's resignation. We
are a little afraid that the Wisconsin
knows no more facts in the case than
other papers; that it only jumps at con-
clusions in order to make another attack
on Governor Hoard.

The Wisconsin is a republican paper.
One would think that it should regard the
party would prevent it from being the
inventor and instigator of charges against
a republican governor, to be repeated
by every political enemy of the party
among the papers of the state—and upon
its authority.

The Wisconsin ought to know that
every undesired attack made upon the
governor and every untruthful charge
entered will result in its own injury. No
undesired attack upon him will hurt
him before the people. And if the paper
mentioned is not less open in its animos-
ity, it stands a chance of being dis-
credited, even if it should have some real
facts to back up its charges.

Governor Hoard is just starting as a
public man in a high official position,
and it is a great pleasure to him (and all
else) to know that the people are too just
to kick him down, unless he himself de-
serves it. If he so conducts himself as
to become more and popular, no enemy
can prevent his rising. If he becomes
politically dead, it must be by his own
hand—suicide. No enemy can kill him.
Enmity, bitter and devilish did all that
meanness could invent to draw public
attention from General Knab. But he
grows nearer and nearer to the hearts of
the Wisconsin people every day, in spite
of it all. If Governor Hoard is a "dead
duck," the Wisconsin needn't join the
democratic ranks in order to let the peo-
ple know it. They are sure to find it out.
If they do not find it out themselves, no
enemy of the governor will ever make
them believe it.

HANDSOME HOME BURNED.

THE STUDEBAKER MANSION AT
SOUTH BEND GUTTED.

Mrs. C. Studebaker Injured in Escaping
from the Building—St. Cloud, Minn.,
in Danger from Prairie Fires.

SOUTH BEND, Ind., Oct. 10.—The Hon.
Clem Studebaker's magnificent stone man-
sion, valued at \$300,000, was almost en-
tirely destroyed by fire and ruined by
water this morning.

The residence was one of the largest and
costliest in the West. It was built of In-
diana fieldstone with tile roof, copper rid-
ging, and the interior was in the costliest
of native and foreign woods. The house
was furnished in the richest style through-
out, and the art gallery on the third floor
was filled with rare works. These are a
total loss.

Mr. Studebaker is absent as a member
of the international American congress,
and was to have entertained the body in
his Indiana home on the 19th inst. The
rest of the family, except Mrs. Studebaker
and her grandchild, are away from
home. Mrs. Studebaker discovered the
fire at 2 o'clock this morning in a closet
opposite Mr. Studebaker's "den" and under
the rear staircase. The flames were
caused by the spontaneous combustion of
some oil rags which had been lying
about. Next to the closet was the elevator
shaft reaching to the roof, and through
this the flames shot and spread all over
the building in a matter of minutes. A
narrow escape, and Mrs. Studebaker herself
was found upon the terrace nearly insens-
ible, dangerously burned, and clinging her
grandchild in her arms. The insurance
amounts to \$25,000.

ST. CLOUD, MINN., IN PERIL.

Destructive Prairie and Timber Fires
Steadily Encreaching on the City.

ST. PAUL, Minn., Oct. 10.—The prairie
and timber fires which have been raging
in several towns adjoining St. Cloud are
assuming a serious aspect. Owing to the
existing dryness the fire is burning sav-
agely, and in nearly every instance where
water is not in abundance the fighting way
is proving futile. Last night the flames in
the town of St. Cloud, about two miles west
of the city, were revived by a strong
breeze from the west, and at 12 o'clock
the fire was burning fiercely in the timber
a mile from the city. Several farmers in
the burning districts have already sus-
tained heavy losses, and some of them in
the burning towns will be obliged to sur-
render their homes to the flames if rain
does not come within a short time. The
situation is unquestionably dangerous.

The drought is not abating, and St.
Paul, and rain is sadly needed. In the
northern part of the state there is a con-
stant fight against timber fires.

This forenoon the fire burned its way to
within a few rods of the Manitoba west
side tracks and the city limits. An im-
mense lot of hay was burned last night.
N. P. Clark loses over a hundred tons.
The smoke is so dense that it is today as
difficult to make it possible to see further than
a block. The fire is burning from four to
six feet in the ground.

Fire in Michigan's Prison.
JACKSON, Mich., Oct. 10.—At 11:30
o'clock Wednesday morning the east wing
of the prison, known as the school and
library, caught fire from the timber's sal-
amanders on the roof. When the fire was
discovered the roof was in flames. After
two hours' hard work the flames were got
under control. The entire building was
gutted and only the walls left standing.
Perfect order was maintained among the
convicts during the progress of the flames.
The total loss is estimated at \$30,000, with
no insurance.

COTTON DESTROYED BY FLAMES.

SAVANNAH, Ga., Oct. 10.—The cotton
presses, the Tyler and Lower hydraulic
presses, five cotton warehouses, and 4,500
bales of cotton were burned this morning.
The loss is \$100,000.

CAPT. SLATTERY WORSE.

Fears That the St. Louis Millionaire May
Not Recover.

ST. LOUIS, Mo., Oct. 10.—Capt. D. P.
Slattery, the victim of the assault Sunday
morning, took a turn for the worse to-day,
and his physicians fear he may not re-
cover. At the time of the trouble the el-
evator negotiations were pending, and as
soon as he gained consciousness he began
to worry over the unfinished state of his
business affairs. Although everything
was done to-day that could be done to
get his mind and thoughts diverted into
another channel the captain would fret
and the consequence is that he has
taken a relapse. On account of the al-
ready high tension to which his nerves are
strung, it would be dangerous to adminis-
ter opiates. The diamonds have not been
found, though no doubt is entertained that
they will be found, could produce them.
The diet of opium salts to which he was
subjected failed to prove that he had
swallowed them. Hickey, the bar-tender,
has been hauled out, Klotzmann furnis-
hing the bail.

WHEAT GROWERS TO CONVENE.

Farmers of the Mississippi Valley to
Meet in St. Louis.

ST. LOUIS, Mo., Oct. 10.—Arrange-
ments for the convention of the wheat
growers of the Mississippi valley, to be
held here Oct. 23, are progressing favor-
ably. The principal objects are the forma-
tion of a wheat growers' association and
action to insure to farmers a better con-
trol of prices and commercial systems now
in force. Walter N. Allen, president of
the Farmers' Federation of the Mississippi
Valley, has assurance that there will be a
large attendance at the convention.

MANY PERSONS IN WANT.

The People of Stevens County, Kansas
Need Food and Clothing.

TORKEA, Kas., Oct. 10.—The people of
Stevens county have lost four successive
crops and are without means to support
themselves during the winter. A com-
mittee was appointed at Hugotin last
Saturday to canvass Kansas for aid. Gov.
Humphrey has indorsed its appeal for
fuel, food and clothing.

Superintendent Resigns.

ANNA, Ill., Oct. 10.—Dr. Wardner,
superintendent of the Southern Illinois in-
sane hospital for the last twelve years,
resigned his position at the regular meet-
ing of the trustees. No action was
taken by the board.

Italy has been almost devastated by the
Abyssinian embassy bearing presents to
King Humbert. The King of Abyssinia,
brother: headed the delegation, and sev-
eral dignitaries accompanied him. The
presents are enormous. Ten of them are

the presents are very valuable Italy will
lose by their visit.

ILLITERACY IN ENGLAND.

The Queen Seeks to Remedy the Evil of
Ignorance.

LONDON, Oct. 10.—One good is likely to
result from the visit of Emperor William
to England. Among the many questions
he asked was as to the percentage of
illiterate persons in England. An ap-
proximate estimate being given he blind-
ly expressed his surprise at the existence
of such a condition of popular ignorance
in a country so wealthy and so high in the
scale of civilization.

His comments were repeated to the
Queen, who lost no time in laying the
matter before her advisers and requesting
them to suggest a remedy. The persistent
agitators who have for so many years
kept the question of free schools before the
public in spite of their discouraging ex-
periences, feel at last that there is a pros-
pect of seeing their labors crowned with
success, but they complain bitterly of the
indifference of people of high position, and
the open hostility of others, who do not
hesitate to proclaim education the parent
of socialism and anarchy, and frankly say
that the common people know too much
already.

It is stated that owing to conservative
pressure the work of removing the ob-
struction to navigation at the "Iron Gate"
of the Danube will be stopped. The old
school of nobility which has opposed the
project for years has again been success-
ful in its protest. The fear of opening a
way into the heart of Austria for hostile
ironclads has once more been weighed the
appeals of the commercial classes.

TO IMPRESS THE CZAR.

Elaborate Military Preparations for His
Visit to Berlin.

BERLIN, Oct. 10.—Arrangements have
been made for the most imposing military
reception on the arrival of the Czar ever
witnessed in Berlin. The entire route
from the Lehrter railroad station across
the Koenigsplatz and over the Char-
lottenburg road will be lined with cavalry,
and beyond this by infantry up to the
gates of the Russian embassy. It is hinted
in certain quarters that this extraordinary
array of bayonets is intended quite as
much as an impressive reminder of the
strength of the German army as for an
innocent spectacular entertainment. Gen.
Woeber will meet the Czar on the route
from Kiel to Berlin. The first reg-
iment of guards, together with a company
of the Alexander regiment, will act
as a body guard to the Czar on the
route from Kiel to Berlin. After ar-
riving at the capital his escort from the
railroad station to the Russian em-
bassy will consist of four squadrons of cav-
alry. The most stringent precautions have
been taken to prevent the possibility of
the approach of the public to his majes-
ty's person. Besides the troops which will
be stationed along the route, the streets
side the route police officials in citizens'
clothes will be thickly scattered along the
edge of the crowds, with instructions to
watch for any suspicious movement on the
part of individuals or groups of people.
These precautions are taken, it is under-
stood, at the express wish of the Czar
himself, whose secret police have warned
him that the greatest care should be taken
during his stay in Berlin to insure his
safety. Acting upon this suggestion the
German officials are making a thorough
census of the houses along the proposed
route to see that no suspicious persons are
lodged there.

A Gladstonian Elected.

LONDON, Oct. 10.—The election in the
parliamentary district of Elgin and Cairn,
to fill the vacancy in the House of Com-
mons, caused by the death of Mr. Charles
H. Anderson, home ruler, resulted in the
return of Mr. J. Seymour Keay, Glad-
stonian, who received 2,571 votes, against
2,030 cast for Mr. C. B. Logan, the union-
ist candidate.

Fell Dead at the Altar.

CITY OF MEXICO, Oct. 10.—A terrible in-
cident occurred yesterday at the cathedral
in this city. While a priest was saying
mass at the altar he fell upon his face in a
fainting condition. The archbishop and
others came to his assistance and physicians
were summoned, but life was already ex-
tinct.

Strike Riot at Bristol.

LONDON, Oct. 10.—There was a riot at
Bristol on the arrival of the steamer
of a number of laborers to replace 600
gas stokers who are on strike. The new-
comers were hooded and pelted with stones
until they took to their heels and dis-
appeared.

The Strike at Flenburg.

BERLIN, Oct. 10.—There are no signs of
a settlement of the strike of the dock
laborers at Flenburg. Soldiers from the
garrison and a number of laborers who
were brought from other places are un-
loading vessels.

Foreign Notes.

GEN. BOULANGER will remain in Jersey
during the winter.

TAICHINE has been discovered in huge
imported into San Luis Potosi, Mexico,
from the United States.

A BREWERY, a hotel, several forge
shops, warehouses, etc., were destroyed
by fire at Oestheim, Bavaria.

The Chief of Danaraland has ordered
all Germans to quit the country, and has
seized German missionaries as hostages for
the safety of native agents imprisoned by
the Germans.

The German military estimates for 1891
do not provide for any increase of the
army effective, but the sum of 120,000
marks is asked for new artillery, firearms
and ammunition, and grants for the staffs
of the two newly formed army corps.

At this agency is represented many of the Sound, Solid Old Companies of this country and England, among them are
The Sun of London, England.
The oldest stock insurance company in the world, and one of the largest.
The Old Hartford, of Hartford, Ct.,
Organized in 1794. I have in my office a full list of the first policy ever issued by this sterling old company, dated Hartford, Feb. 28, 1794, which is well worth examination. With the millions of assets, great experience, and the fair and honorable manner in which this company has at all times adjusted its losses, accounts for its great popularity and enormous business. All my customers have had great experience, have immense assets, and sound and solid. The most of them have been through all the great fires for years past, including those of Chicago and Boston, and have always paid one hundred cents on the dollar and always will.
THE BEST IS THE CHEAPEST.
I also have a special form policy for dwellings and contents, the shortest and best ever issued. All policies written at lowest possible rates. Please call at my office opposite Rock County National bank

THE NATIONAL CAPITAL.
REPORT OF THE CHICAGO POST-
OFFICE COMMISSION.

An Enlargement of the Building and an
Increase of the Force Recommended.
—The Free Delivery System—Gossip.

WASHINGTON, Oct. 10.—The commis-
sioners appointed to examine and report
upon the needs of the postal service at
Chicago has completed its labors and sub-
mitted its report to Postmaster-General
Wanamaker, in the course of which it
says:
"The quarters assigned for the use of
the postoffice at Chicago are not suitable
or ample. In order that secure more room
and better connections with the east
and west corridors, main floor, are now
being inclosed for the use of the wholesale
and retail stamp departments and a part
of the mailing division. This additional
will give more room for the money order
and registry divisions and slightly relieve
the city delivery division.
"In the near future, however—in fact,
as soon as more room and additional
facilities for the postal service of Chicago
and the Northwest should be supplied.
Chicago is the next largest postoffice in
the country, and in importance is second
only to New York. It is a business center
considered local. The large number of im-
portant railway lines centering and con-
necting at Chicago makes the postoffice the
largest exchange and distributing point
between the East and the West and the
Northwest. Good and efficient service at
this important center necessarily means
better service for the vast and growing
section of our country known as the North-
west.
"We are of the opinion that the most
practical solution of the question is to con-
struct an annex to the present building,
enlarging the main floor space on the east
and west to the line of the pavements.
The additional floor space which would be
gained by this plan is stated to be
60,760 square feet, or 87.8 per cent.
These annexes can be constructed of iron
without much cost, in such a manner as to
improve rather than mar the architectural
effect upon the exterior of the building.
Additional furniture should be provided
without delay.
"A reorganization of the executive divi-
sion is recommended, also one additional
section clerk, who will also perform the
duties of a draughtsman. The present
force of the mailing division numbers 345,
with salaries aggregating \$30,500. With
the ten inquiry clerks recommended to be
assigned to this division the force will num-
ber 355, with salaries aggregating \$204,-
900. Twenty-six additional regular clerks
and twelve temporary clerks, with a total
amount of \$19,570 for salaries, are recom-
mended, making, with seven clerks changed
from the executive division to this division,
382 regular employees, with a total of
\$233,400 for salaries.

FREE DELIVERY SYSTEM.
Mr. Wanamaker Will Recommend Its
Extension.
WASHINGTON, Oct. 10.—Postmaster-
General Wanamaker will recommend in his
annual report that the free-delivery
system be extended to cities of 8,000 in-
habitants. This recommendation is war-
ranted by the fact that the revenues of
the free delivery offices for the year will
be from \$1,500,000 to \$2,000,000 in ex-
cess of expenses. In 1886 there were about
181 free-delivery offices in the country.
During Mr. Cleveland's administration
the necessary population for a free-
delivery office was fixed at 20,000, or
10,000, and the number of these offices has
increased at this time to 433. The further
extension proposed by Mr. Wanamaker
will increase the number of free-delivery
offices very greatly and add greatly to the
completeness of the postal system.

For Corporal Tanner's Place.
WASHINGTON, Oct. 10.—Ex-Congressman
W. Steele of Indiana has been elected
at the White House in conference with Pres-
ident Harrison in reference to the commis-
sionership of pensions. He has also been
elected secretary of the National Pension
Department. A short time after
leaving the latter place and going to the
White House President Harrison sum-
moned Secretary Noble to the executive
branch of the building, and Mr. Steele's
friends from Indiana now in Washington
believe that he is slated for appointment
as successor of Corporal Tanner.

Tanner's Order Rescinded.
WASHINGTON, Oct. 10.—In the claim of
John H. Lunderville, late private com-
pany K, Tenth Vermont Volunteers, on ap-
peal from the commissioner of pensions,
Secretary Bussey to-day rescinded his or-
dered a decision in which he reviews and
rescinds the "order" issued by Commis-
sioner Tanner April 23, 1889, which abol-
ished the rating of \$2 a month and set-
tled for the same the sum of \$4 a month
in all cases dating from March 27, 1889.

Capital Gossip.
First National bank at Dunlap,
Iowa, has been authorized to begin busi-
ness with a capital of \$50,000.
It is said that Secretary Tracy, in his
annual report, will recommend the Brook-
lyn, N. Y., estimated cost of \$1,000,000,
will be \$800,000, the outlay to be made
at the rate of \$50,000 a year.
The President has commuted to six
months' imprisonment the sentence im-
posed in the case of John H. Fern, con-
victed of the murder of William H. Smith,
the postal laws. He denied the
application for pardon in the case of
Frank Young, convicted in Indiana of
passing counterfeit money.

SMUGGLERS ON TOP.
Opium Being Brought Into San Fran-
cisco in Great Quantities.
SAN FRANCISCO, Cal., Oct. 10.—Ten
years ago, to guard against opium smug-
gling, the government at the instance of
the revenue collectors here, made obli-
gatory the placing of a special stamp upon
each five-ten box of opium imported here.
The scheme worked well, for the collector
was thus enabled to seize any opium in
China which did not bear this stamp.
Jan. 19 last, without any warning to the
department here, Assistant Secretary
Maynard issued an order abolishing the
stamp on opium. The result has been
a great increase in the stock of
smuggled opium, which has been
brought here from Victoria, Mexi-
co, and other points where smuggling
is easier than at this port. It is estimated
that seven-eighths of the opium sold here
in the last eight months has been smug-
gled, because the sales are out of all pro-
portion to the imports. Fully \$1,000,000
worth of the drug has been sold, and the
smugglers have cut the price down below
what the legitimately imported article can
be profitably sold for. Collector Hager
and all his subordinates declare that the
stamp should be replaced, and should be
made so well that it can not be counter-
feited.
Card of Thanks.
If the proprietor of Kemp's Balsam
should publish a card of thanks, con-
taining expressions of gratitude which
come to him daily from those who have
been cured of severe throat and lung
troubles by the use of Kemp's Balsam, it
would fill a fair sized book. How much
credit is it to call on any druggist and
get a free sample bottle that you may
test for yourself its power. Large
bottles 50c. and \$1.00.
Beecham's Pills cure bilious and ner-
vous ailments.
The best medical writers claim that
the stomach is the source of all diseases
must be non-irritating, easy of applica-
tion, and one that will reach all the re-
mote sores and ulcerated surfaces. The
history of the efforts to treat ailments dur-
ing the past centuries up to admit that
one remedy has met these conditions,
and that is Ely's Cream Balm.
This pleasant remedy has mastered cer-
tain as nothing else has ever done, and
both physicians and patients freely con-
cede this fact. The most distressing
symptoms yield to it.
Beecham's Pills not like magic, on a
weak stomach.

SECOND POINT

You should read *The Chicago Daily News* because you *have* the time to read it. There is a paper for every man, woman and child, and this is large as a blanket. This wouldn't suit you. You want a newspaper at a convenient, complete and condensed, and still you want to overlook anything of real importance. You don't want your neighbor to see to you. "Did you read so-and-so in to-day's paper?" and he is obliged to answer, "No, I didn't see that," and then have him ask you, "What paper did you read?" This will never happen. You can't miss *The Chicago Daily News*.

Remember—its circulation is 200,000 a day—over a million a week—and it costs by mail or express, a month, four months \$4.00 in advance.
